

RG-2400 LT™ SPRAY

Spray Equipment

Polyguard sprays **RG-2400 LT™** without thinning the material – the following are the sprayer specifications of the equipment we own:

Graco 90:1 NXT Extreme pump assembly. We typically operate the spray unit at approximately 6,000 – 6,500 psi. The one we own has a 7 1/2 gallon Stainless Steel hopper with a heated recirculation unit. This is designed for cold weather applications. The hose is 50' X 3/8", with a high pressure gun, tip, and fittings. The tip size is either a 5-19 or a 5-17. Purchased from Spray Quip in Houston. Spray tip can be chosen to fit your application.

- Air requirements - 100 psi at 40 - 70 cfm
- Power requirements- 110 power
