The repair service, which includes labor, materials, services, and/or supplies, purchased from the vendor is for repairing, renovating, or converting a drilling rig or its component machinery and equipment parts. The drilling rig and its component machinery and equipment are for use exclusively outside the territorial limits of Louisiana in the Outer Continental Shelf waters. A drilling rig means any unit or structure, along with its component parts, which is used primarily for drilling, work over, intervention, or remediation of wells used for exploration or development of minerals. Component parts means any machinery or equipment necessary for a drilling rig to perform its exclusive function of exploration or development of minerals.
